

VISIO MI PUTTING TEMPLATE (FACE LINES)

SKU: 1HV1009V-12

- Come in series of templates (12, 15, 18 & 21 degrees)
- Comes with holes placed strategically where you can fix tee pegs to help physically constrain the stroke
- Perfect for many golfers and teaching professionals
- Comes with holes placed strategically where you can fix tee pegs to help physically constrain the stroke to the shape of each individual arc.
- Plastic tube is provided for easy storage

Mi Putting Template is a putting mat designed to give you visual and kinaesthetic feedback of one the most important aspects of putting, controlling the face angle.

The series of templates (12, 15, 18 & 21 degrees) represent four commonly found curvatures 'or' arcs of stroke. The 12 arc represents a shallow arc stroke, 15-18 offer medium arcs and the 21 a strong arc stroke. The number represents the degree of the inclined plane.

The arc of the stroke is aligned also so that the projected path at impact is perfectly square to the ball to target line, which is also referenced on the Mi Putting Template. A common preference for many golfers and teaching professionals

For storage and shipping purposes your Mi Putting Template has been rolled, print side showing, inside

VISIO START LINE TRAINER

SKU: 1HV1029V

- The Visio Start Line Trainer is a versatile and innovative training aid that will provide the player with specific feedback on their ability to hit their intended starting line
- 3 different width 'gate' settings
- develop accuracy of less than 1 degree of error
- Comes with Leather pouch for storage

The Visio Start Line Trainer is a versatile and innovative training aid that will provide the player with specific feedback on their ability to hit their intended starting line, one of the most important skills required in putting.

The device has 3 different width 'gate' settings where tee pegs can be placed into the holes. If the ball starts outside of the required degree of accuracy on each setting then it will collide with the tee peg providing both visual and auditory feedback.

On a straight 10ft putt you will need to develop accuracy of less than 1 degree of error in your starting line to be successful. Training with the Start Line Trainer will not only help to develop the skill of being able to hit your starting line, but also give the golfer clear feedback on any directional patterns there may be.

VISIO THE NEW MI PUTTING TEMPLATE (FACE LINES)

SKU: 1HV1039V

- 5 templates represent the 5 most found arc "sizes"
- The Mi Putting Template will give you a reference for club head rotation relative to each arc
- New protective case included

Mi Putting Template is a putting training aid designed to give you visual and kinaesthetic feedback on your putting stroke

The template will give you precise feedback on the trajectory of the sweet spot (which determines the path and strike) and the face angle (which is the primary variable that controls direction). The key technical components of the putting stroke

The Mi Putting Template will give you a reference for club head rotation relative to each arc. Training with the Mi Putting Template will help you start a ball online with impact conditions that will also minimise excessive side spin and promote a better ball roll to help distance, control and accuracy. 5 templates represent the 5 most found arc "sizes"

VISIO THE NEW PUTTING GATE

SKU: 1HV1049V

- The Visio colour coded gates come in a pack of 3 sizes (RED 60mm, SILVER 55mm and BLACK 50mm)
- The putting gates also come with an indoor holder so you can use the gates for your indoor putting practice.
- A tape measure is also supplied so you can precisely place the gate at exact distances to be sure you are practicing
- Comes with leather bag

The Visio colour coded gates come in a pack of 3 sizes (RED 60mm, SILVER 55mm and BLACK 50mm) which when placed at specific distances from the ball, on your chosen target line, will create a specific angle of error that you will need to achieve in order to successfully putt the ball through the gate.

50mm @ 17 inches requires less than 0.5 degree of error
50mm @ 11 inches requires less than 0.75 degree of error

55mm @ 14 inches requires less than 1 degree of error
55mm @ 19 inches requires less than 0.75 degree of error

60mm @ 40 inches requires

less than 0.5 degrees of error

60mm @ 20 inches requires less than 1 degree of error

The putting gates also come with an indoor holder so you can use the gates for your indoor putting practice.

VISIO MIRRORED PUTTING GATE

SKU: 1HV1019V

- The mirrored device has 3 different width 'gate' settings that hold in place 2 magnets.
- Therefore on a straight 10 foot putt you will need to develop accuracy of less than 1 degree of error
- 3 settings offer the golfer the challenge of being able to start the ball within 0.5, 0.75 or 1 degree of accuracy.

The Visio Mi Putting Gate is a versatile and innovative training aid that will provide the player with specific feedback on their ability to hit their intended starting line

The mirrored device has 3 different width 'gate' settings that hold in place 2 magnets. If the ball starts outside of the required degree accuracy on each setting then the ball will collide with the magnet providing both visual and auditory feedback.

The 3 settings offer the golfer the challenge of being able to start the ball within

HOLE ZERO GOLF

0.5, 0.75 or 1 degree of accuracy. The setting closest to the ball requires less than 1 degree of accuracy. The 2nd closest setting requires less than 0.75 degree of accuracy while the setting furthest away requires less than 0.5 degree of accuracy. An interesting test when you consider at 10 ft 1 degree of error would be lined up to the edge of the hole, while at 20ft 0.5 degree of error would also be lined up to the edge of the hole
